

Earthquake Safety Program

Notification

Notification of Construction at Daly City Station

April 2009

Dear Community Member:

As part of our system-wide Earthquake Safety Program, we will begin strengthening structures at the Daly City Station to withstand future earthquakes. Work areas will be fenced in, and you will see large equipment accessing the site such as dump trucks, drill rigs and lifts. You can also expect temporary construction-related noise, dust, traffic impacts and pedestrian detours. We will monitor noise and dust to meet local regulations and work to minimize any inconveniences. Please watch for signs with safety information and other notices. We appreciate your patience and cooperation during this work.

Construction Work Details

- **Description: Constructing temporary enclosures, adding steel and concrete to foundations, wrapping columns with reinforcement, and protecting utilities and equipment**
- **Location: 17 columns throughout the Station (working south to north), stairs, escalators, platform and other locations – later stages of work will require relocation of bike racks/lockers and taxi stand**
- **Start Date: Approximately late April or early May 2009**
- **Duration: Approximately 1 ½ years**
- **Hours: Most work between 7:00 A.M. and 7:00 P.M. Monday through Saturday, with periodic night work**
- **Emergency work as necessary**

A separate project to strengthen columns along nearby streets will be scheduled later.

Earthquake Safety Program construction will be underway at various locations throughout the BART system over the next five years, and is expected to be complete by the end of 2014. As always, safety is BART's top priority. Our aim is to strengthen BART as quickly as possible, while maintaining BART service.

To contact the Earthquake Safety Program or obtain additional information, please visit our website at www.bart.gov/earthquakesafety or call our Program Information Line at **415.678.4018**. Thank you again for your patience and cooperation.

ABOUT THE PROGRAM

The BART Earthquake Safety Program will upgrade the original BART system to ensure safety and the ability to return to operation shortly after a major earthquake.

Priorities for strengthening work include BART's Transbay Tube, elevated structures and many stations.

Thank you for supporting BART's efforts to protect this Bay Area asset.
