Notification

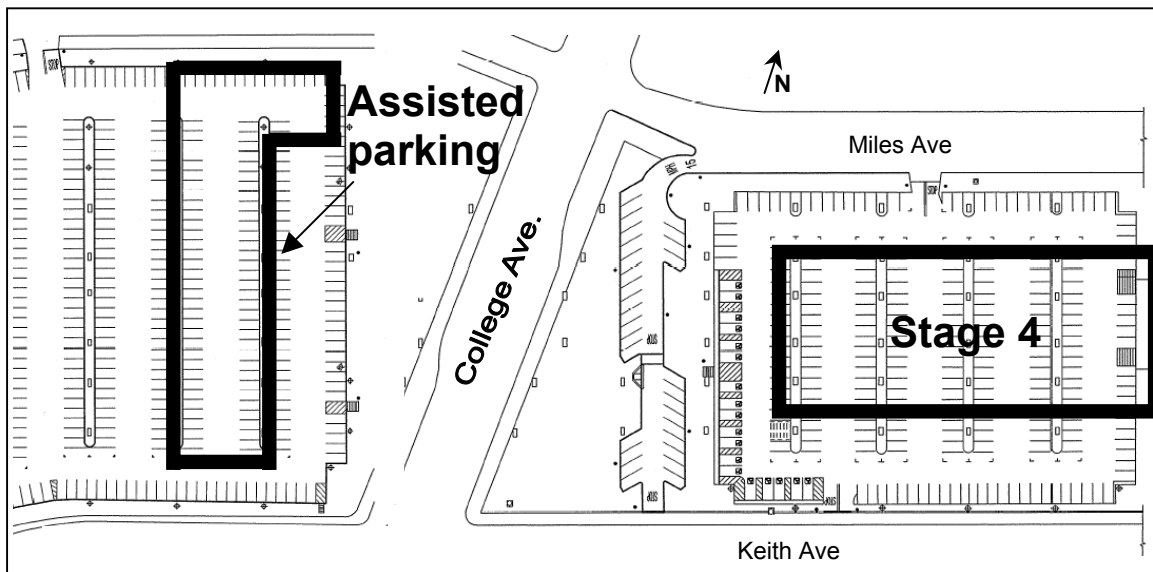

Temporary Changes to Parking At Rockridge Station

July 2009

Dear BART Patron:

Stage 4 of the BART Earthquake Safety Program construction at the Rockridge Station is set to begin in early August. To accommodate BART permit holders assisted parking will be provided. DAJA International LLC is the company that will be providing this service. DAJA has 15 years experience in assisted parking and manage similar operations at The University of California at Berkeley and at the San Francisco State University Foundation.

The assisted parking required in Stage 4 is for **BART Permit Holders only**. Hours of operation are 6:00AM-10:00PM, Monday through Friday, except for holidays. Assisted parking will be available in the western parking lot, once spaces in the eastern parking lot at Stage 4 are filled. Below is a diagram showing the area. Parking lot users will be asked to turn their keys over to the attendants, who will park cars in the aisles to fit more cars into the lot. Attendants will be in uniforms and will issue tickets to ensure proper return of your vehicle. Vehicles that are left after 10:00PM can be retrieved the next business day Monday – Friday after 6:00AM. In case of an emergency, you can call 415.710.6269 to retrieve your vehicle. A \$50 fee may be required. We appreciate your patience and cooperation during this work and will attempt to minimize construction-related noise, dust and inconvenience.

To contact the Earthquake Safety Program or obtain additional information, please visit our website at www.bart.gov/earthquakesafety or call our Program Information Line at **510.874.7425**. Thank you again for your patience and cooperation.

ABOUT THE PROGRAM

The BART Earthquake Safety Program will upgrade the original BART system to ensure safety and the ability to return to operation shortly after a major earthquake.

Priorities for strengthening work include BART's Transbay Tube, elevated structures and many stations.

Thank you for supporting BART's efforts to protect this Bay Area asset.
