ELECTRICAL UPGRADE WORK CONTINUES AT WEST OAKLAND STATION

Dear Customer:

As part of our Traction Power System Upgrade Project, construction is currently underway to install electrical conduit and cables along BART's elevated structures in West Oakland and at the West Oakland Station.

The weekend of February 22-23, we will need to close parking spaces in the West Oakland Station parking lot. The work will take place between 7am and 5 pm. The contractor will post "No Parking" signs 72 hours in advance in designated areas prior to work. Vehicles that are not moved from areas that have been marked with "No Parking" signs on the dates posted will be subject to ticketing and/or towing. Please see the map on the reverse of this bulletin for the location of closed parking areas.

Equipment used on site includes movable lifting equipment and trucks to hold the equipment. You can also expect some construction-related noise. Please watch for signs with safety information and other notices.

We apologize for any inconvenience this may cause you and appreciate your patience. To contact this project or obtain additional information, please call Gene Calderon, Community Relations Liaison, at (510)464-6197. Thank you again for your patience and cooperation.
